

## FEEDING SYSTEMS HI-LO PLUS

### KEY FEATURES

#### External Adjustment Ring

This unique precision-engineered and farm-tested external adjustment ring provides you ultimate simplicity and hygiene. It provides you an extremely easy way to change the feeding level without touching and contaminating the feed. From level 1 to level 6, one pan can fit your feeding style the best. Low level for accurate feeding control, high level for energy cost efficiency.

#### Detachable Drop Tube

The upgraded version of slide cap provides unbeatable convenience. It is extremely easy to attach to and detach from the feeding tube without compromising the firm and stable connection.

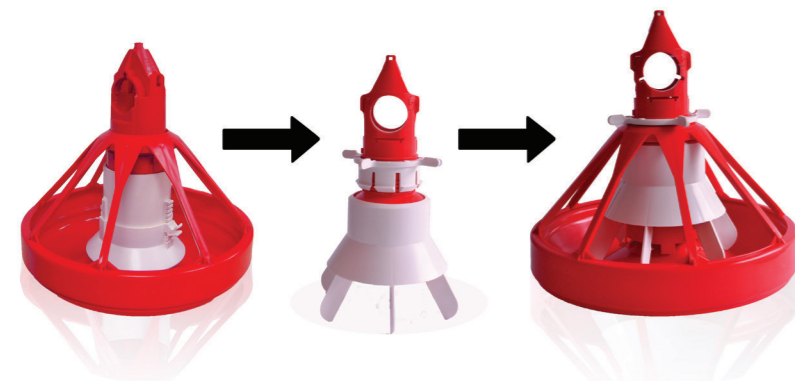

#### Easy Installation

"Telescope" structure makes installation extremely easy and time saving. Simply put it on and it is ready to go.

#### Smooth Edge Rim Design

The high wall reduces feed waste from birds' pecking, saving feed cost and increasing FCR. Smooth finishing ensures healthy and beautiful birds without scratches or rashes. Fit your feeding style the best. Low level for accurate feeding control, high level for energy cost efficiency.

#### Upgradability

Hi-Lo Plus can be upgraded from Hi-Lo with inter-changing parts. This enhanced design concept eyes on maximizing the ROI of your business.

#### Swing-able

The thoughtful flexibility provides a safer and better feeding position without bruises on birds' breast and super convenience for cleaning and drying.
