

# NUTRAPAN

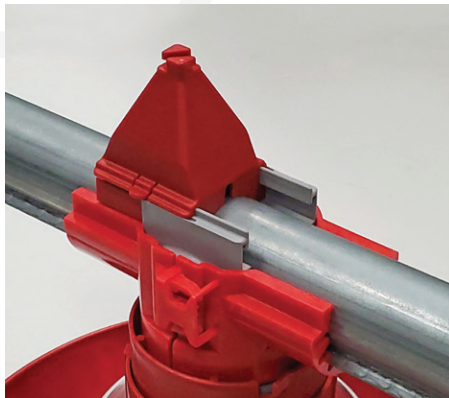

PULLET PAN FEEDER

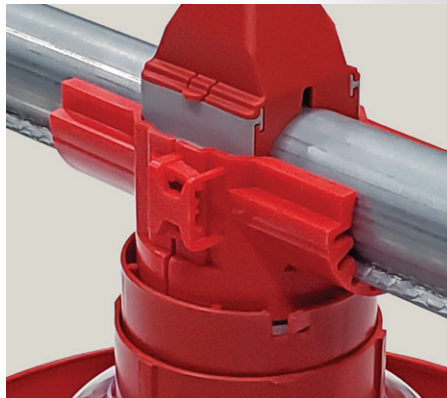

# Built to **PERFORM**

The NutraPan™ no spoke design provides uninhibited access to the pan. A clear guard keeps chicks from entering the flood window.

- Grilless design eliminates birds getting caught in the pan improving liveability
- Simple assembly
- Removable 2-piece drop tube
- Enhanced feed saving lip
- Clear guard for flood window
- Anti-rotation clips available

A 2-piece drop tube design allows for simple installation.

An anti-rotation clip\* for tube programming holds the NutraPan feeder stationary on the feed tube.

\*Sold separately

An enhanced pan feed-saver lip helps keep feed in the pan and off the floor.

Cumberland's i-plus3 control pan utilizes infrared technology to sense and detect the level of feed in the control pan for proper and reliable operation, day in and day out.
